# Consideraciones finales

# Consideraciones Finales

---

- ▶ La era digital, revoluciona, la forma de producir y distribuir el conocimiento.
- ▶ ¿esta *cyberintermediación*, afecta el rol de las universidades?

# Consideraciones Finales

---

- ▶ **El desafío:** adaptarse a la irrupción de nuevo conocimiento, muchas veces no predecible y lograr transformarlo, en conocimiento socialmente aceptado.

# Consideraciones Finales

---

- ▶ En las dos últimas Revoluciones Tecnológicas, coexisten etapas, como:
  - Basada en **trabajo y recursos naturales**. La competitividad en ella solo soporta salarios bajos.

# Consideraciones Finales

---

- Basada en **inversiones**. Competitividad en productos estandarizados. Mayores salarios y sujeta a crisis financieras y a shocks externos.
- Basada en **innovación**. La competitividad se asienta en la habilidad de producir productos y procesos innovadores. Es esta la que permite mejores niveles de vida.

# Consideraciones Finales

---

- ▶ En esta última, el conocimiento y la innovación contribuyen grandemente a mejorar la productividad.
- ▶ Krugman: “La productividad no es todo, pero en el largo plazo es casi todo”

# Consideraciones Finales

---

- ▶ **El desafío:** Pasar de una ubicación de operar y competir en productos de orientación masiva y **costos relativamente bajos** a competir en base a **valor único e innovación**
